INQUIRE LOCALLY FOR CURVE  
CONDITIONS, BEFORE DRIVING  
ON UNIMPROVED ROADS SHOWN  
ON THIS MAP

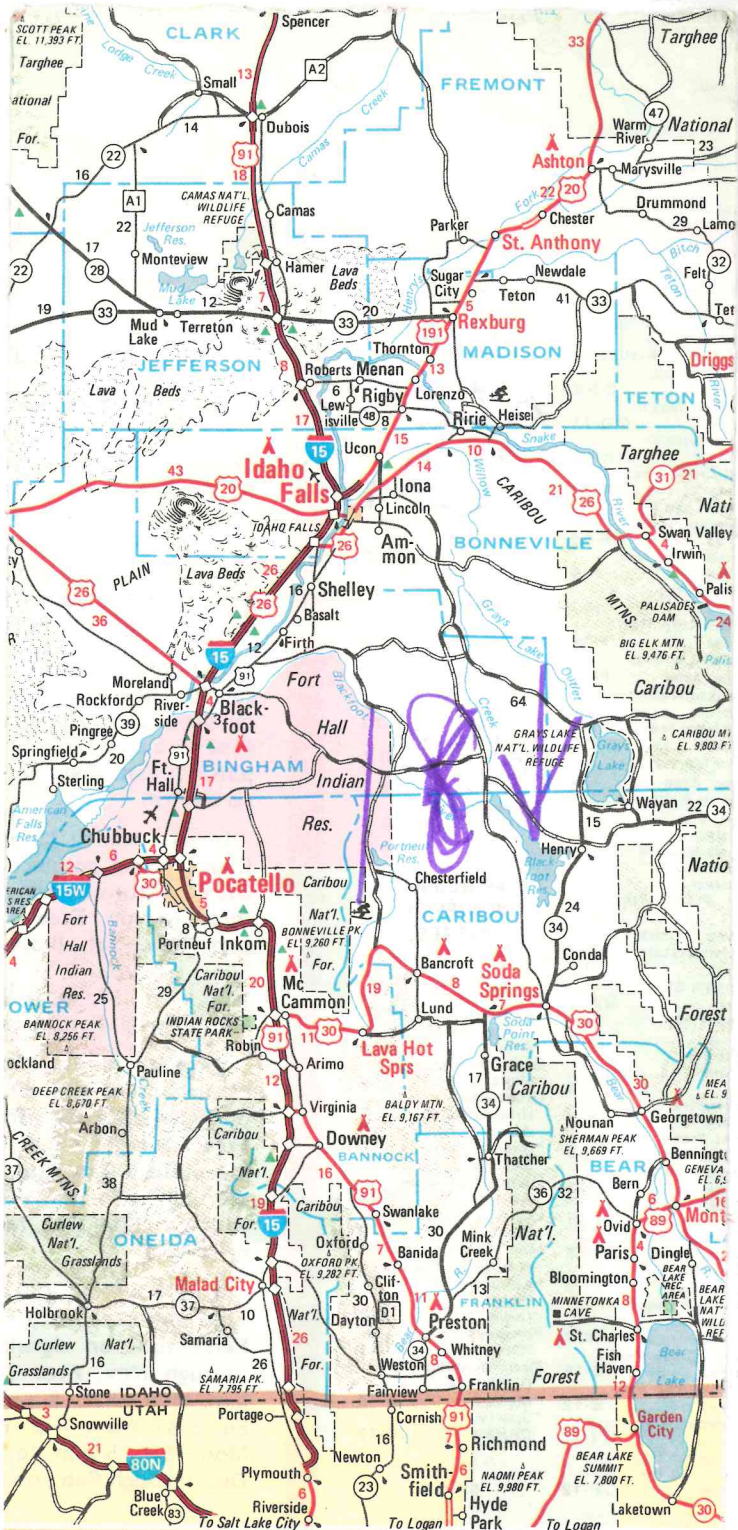

MAP ADAPTED FROM  
AT SATELLITE IMAGERY.

Printed in U.S.A.

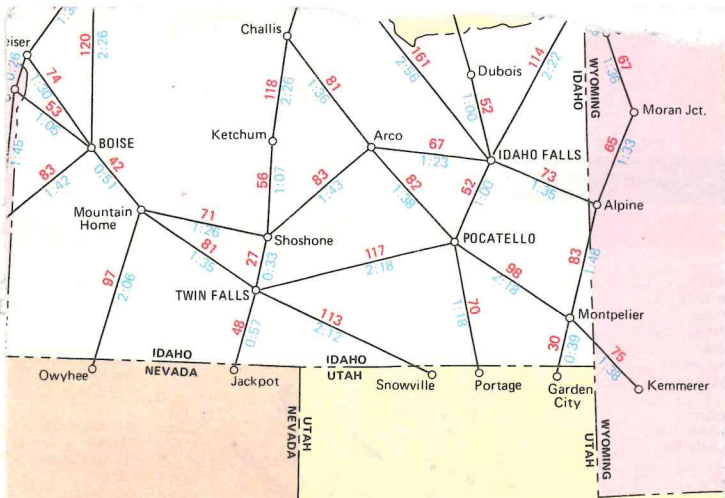

AT FIRST GLIMPSE, the territory: mostly mountain rivers — the writhing Snake and the Salmon and the Snake River — are not to be feared. The former is being dammed.

Still, the motorist's view of the Gem State is that of a landscape that has congealed in fantastic forms. The Moon National Monument, bordered by the Severn, presents a wild and scenic panorama of rolling hills of Palouse Country with waving wheat. Some are blanketed with one of the state's shyest moose and bighorn sheep.

Those more attuned to the past will enjoy Sun Valley recreational facilities. Also, the ghost towns and abandoned buildings of a bygone era. The state's Nez Perce National Historic sites in northern Idaho and culture.

## RIVING DISTANCES

U.S. IN MILES 100 - CANADA IN KILOMETERS 161  
AVERAGE TIME (EXCLUDING STOPS): 2:00

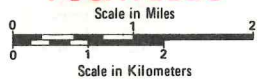

Idaho is awesome terrain, it features some of the most beautiful in its hell-deep canyon, the River of No Return, although the river is not as well known as the Snake River.

The overriding impression of the state is one of unexpected beauty. Lava flows, volcanic shapes at Craters of the Moon; Hells Canyon, the Devils Mountains, presidential parks. By contrast, the Snake River Country are gently crested. The Snake River Valley of northern Idaho is one of the country's largest. These forests conceal some of the state's most famous citizens — grizzly bear, elk, and moose.

Idaho is a state of contrasts. From the rugged mountains to civilization's wonders, from the desert to the coast, famous for its recreation, of interest are numerous. The state is rich in mineral resources, vestiges of a mining past. Idaho also honors its past with the Shoshone Park, 23 dissimilar to depicting native Indian life.

**POCATELLO**

# INDI

## EXPLANATION

See Aberdeen below. The key is Q-9. Open the map and draw an imaginary line from the letter Q and the number 9 on the margin of the map; the intersection of these lines will be the approximate location of Aberdeen.

KILOMETER  
IN CANADA

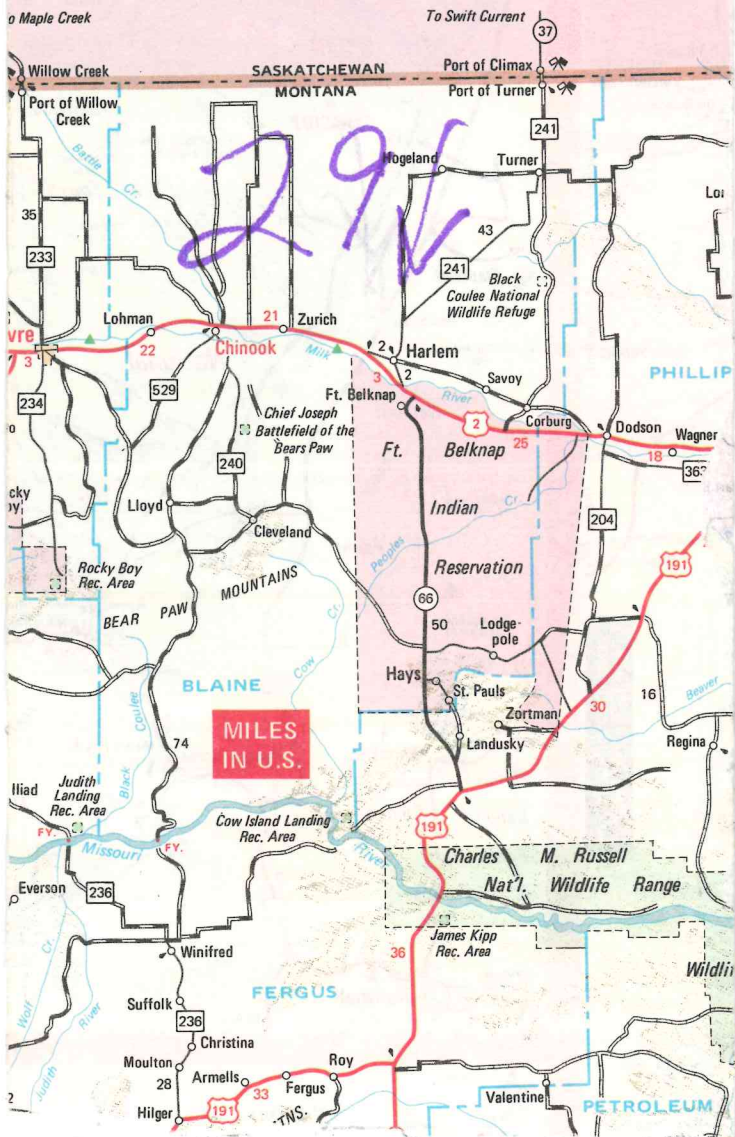

To Medicine Hat

**MONTANA**, still the picturebook West, is where big sky, shining mountains and wide open spaces are not bromides but understatements. Here, where the Rockies meet the great grass plains, the weather for the eastern part of the Nation is brewed. An early-rising traveler may still see cowboys against the pre-dawn sky or find himself surrounded by lowing herds on a major highway.

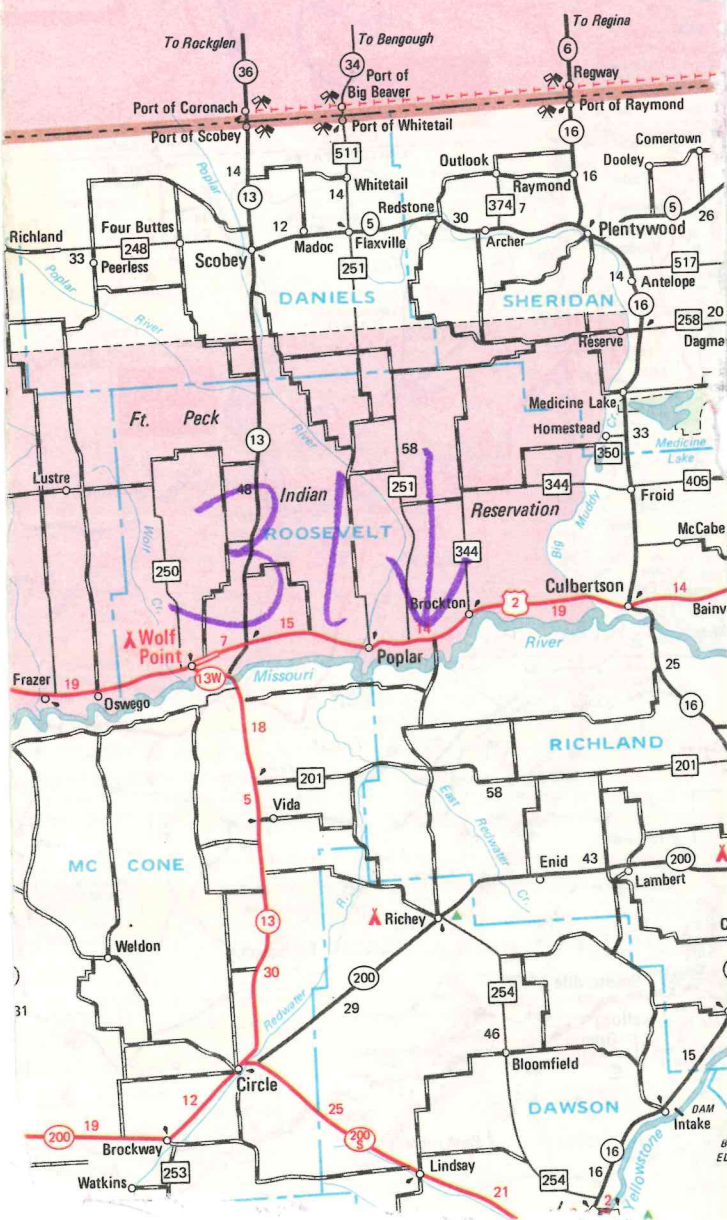

Not surprisingly, Montana is a favorite vacation state. Billings, Great Falls, Helena, Kalispell, Missoula, Butte and Glacier House offer glimpses of the state's glittering mining era. The towns kick up their heels at Indian fairs and rodeos. For wilderness areas are plentiful with their attendant fish and game. The fine alpine scenery of Glacier National Park and West Glacier complete Montana's special and spacious refuge.

## EXPLANATION

See Absarokee below. The key is K-13. Open the map and draw an imaginary line from the letter K and the number 13 on the margin of the map; the intersection of these lines will be the approximate location of Absarokee.

\*Indicates features which appear on Glacier National Park insert map on reverse side.
